About the centre

The Technology Centre is the technologically-advanced home to Sappi's research and development team. Strategically located at The Innovation Hub, Pretoria, it offers centres of excellence in pulping, bleaching and biorefinery, and expertise in paper sciences, chemical sciences, biotechnology and environmental research.

The Centre comprises 5 departments and employs over 50 technical and scientific staff with specialist knowledge and skills.

With over 60 years of research and testing experience in the industry, and with over 20 years of ISO 17025 accreditation* for a range of tests, the Technology Centre offers specialised world-class knowledge and technical support at internationally competitive rates. The following routine external testing services are on offer:

- Water and wastewater testing
- Paper, paperboard and corrugated cartons testing
- Wood, pulp and liquors testing
- Microscopy

In addition, specialised services applicable to the pulp, paper and related industries can be tailored around customer requirements. These requests will be evaluated on an individual basis.

*The Sappi Technology Centre's accreditation number is T0080 and the schedule of accreditation may be accessed from the SANAS website www.sanas.co.za
