When strong and
stunning wins the race

The fine line between style and substance.

Beauty and strength, together in one powerful package that's perfect for publishers, direct mailers, catalogers, and printers alike.

At Somerset, our one-of-a-kind manufacturing process produces sturdy paper with a smooth surface that allows images to pop off the page. The strength of the product translates directly into remarkable on-press efficiency and a heftier, more substantial feel in the finished piece. With Somerset®, you always get stunning results that demand your audience's attention.

A new definition of powerful

Somerset is the only mill that combines papermaking, coating, and calendering into a single continuous process. This means a stronger paper with more bulk and fewer splices, which is critical to high-volume web printing. The process also creates a smoother surface that allows ink to stay higher up on the paper for superior hold-out and print gloss—delivering rich, arresting imagery and a completely immersive experience.

Peace of mind

Somerset paper is built to withstand the demands of our continuous 4,000-feet-per-minute manufacturing process without breaking, making it the perfect solution for high-intensity printing environments. Its incredible durability means fewer web breaks and less downtime, which also means less hassle and fewer surprise costs. And the Somerset Mill uses three machines—all capable of producing a high volume of multiple weights and finishes—helping to ensure your project comes in on time.

A difference you can feel

Somerset delivers a far more substantial feel when compared to similar basis weight papers. This is critical for publishers and direct mailers because it allows for a lighter weight while maintaining a powerful, tactile experience that your customers will want to keep in their hands longer.

1 CIE L*a*b* values are approximate and in conformance with ISO 13655:2017. Data are specified according to the measurement condition M0, measured using an X-Rite eXact, configured to D50, 2° Standard Observer, 45/0 measurement geometry, with white (self) backing. Values may vary significantly when measured with different instruments. Average CIE L*a*b* data are presented for relative paper shade comparisons—not as product specifications. Paper white values specified according to the measurement condition M1 are available upon request.

2 Guaranteed to meet US Postal Service 7-point minimum business-reply requirements.

3 Guaranteed to meet US Postal Service 9-point minimum business-reply requirements.

4 Meets SIMRA/NASTA specifications.

5 Matte Reply Card.

All values listed are approximate and subject to change. Please visit sappi.com for the most up-to-date product specifications and available certifications.

The Fine Line of Sappi Papers

Our products

We engineer McCoy, Spectro, Opus, Somerset, Flo, Galerie, and EuroArt Plus to meet specific user needs, but there are several attributes you'll get from every piece of Sappi paper:

- Superior quality
- High-grade fiber
- Smooth printing surface
- Consistent press performance
- Dependability in the toughest printing environments
- Superior ink hold-out for full color intensity
- Uniform color reproduction
- Side-to-side consistency
- Tight variability tolerances
- Manufactured in the USA (McCoy, Spectro, Opus, Somerset, and Flo)

Pioneering research and innovation

At Sappi, our passion for paper can be traced back over 165 years and is what guides us today. Our history of industry firsts includes the first paper coated and calendered on two sides, the first dull-coated paper, and the first mill-branded paper. Our innovative spirit is also demonstrated in initiatives like *Sappi etc.* and *Ideas that Matter*, which provide thought leadership for the entire paper industry.

Sustainability

When you commit to a print campaign, you should be confident in your paper company's approach to sustainability. That's why we take a holistic view of our environmental responsibilities—from harvest through manufacturing, distribution, end use, and disposal. From beginning to end, we infuse environmental and social responsibility into our paper, processes, and people, in order to give you one less thing to worry about. Somerset's product features include:

- 10% recycled fiber available upon request
- SFI Certified Sourcing
- FSC®, SFI®, or PEFC™ Chain-of-Custody (CoC) certified available upon request
- Lacey Act compliant
- SmartWay® Transport Partner

Best-in-class service

We go way beyond technical specifications to help you choose the right paper for your brand and campaign needs. And once you're on press, our trusted printer technical support team stands ready to make sure your project turns out just right.
